School enrollment renewal for students attending the 2026-2027 school year - nursery school - primary school - secondary school 2026/27 and voluntary contribution.

2026/2027 school enrollment renewals for students already attending nursery, primary and lower secondary schools shall be automatically submitted, no specific form is required for reconfirmation. Only in cases where families wish to change their choice regarding Catholic religion instruction, other than the one previously stated at the time of enrollment, is it necessary to submit Form B, duly completed and signed, to the school office during office hours by February 28, 2026.

Voluntary contribution and insurance fee

The "Voluntary contribution from families" for the 2026/27 school year, aimed at expanding the educational offer for all school levels, was set as such:

- Kindergarten Euro 35.00 (including the mandatory school insurance fee of €6.00)
- Primary School Euro 45.00 (including the mandatory school insurance fee of €6.00)
- Secondary School Euro 55.00 (including the mandatory school insurance fee of €6.00)

• For students with disabilities (Law 104/92), free insurance coverage is provided.

• It is worth mentioning that the "voluntary contribution" from the school families is instrumental in enhancing the educational offer, thus leading to further projects and activities for which school resources are not sufficient. Internal resources are nonetheless essential to the management of the school's basic daily activities (generic everyday management, maintenance of the premises, assistance and maintenance, IT networks, office expenses and consumables).

• The voluntary contribution is regularly recorded in the accounting documents and subsequently reported and submitted to the Board of Auditors; the School Council decides each year on its use according the obecjtives of the Educational Offer (PTOF);

• The payment by families is voluntary and therefore not mandatory as it is not set forth by law;

• Since it is voluntary, the contribution can also be lower or higher than the amount given without prejudice to the obligation to pay the school insurance € 6.00 fee;

Family contributions are aimed at expanding the School Educational Offer (PTOF), notably:

- remedial courses and course for advanced learners;
- literacy courses for students with diverse language skills and language mediation interventions for building up enduring school-family relations;
- expressive art workshops with experienced teachers;
- health education interventions, psychological and orientation services, pedagogical support for nursery schools;
- purchase of teaching materials and aids;
- book lending made available, reading workshops in school libraries and cataloguing.

PAYMENT INSTRUCTIONS :

Payment contributions will be due no later than February 28th, 2026 clicking on the link:
